PROFILE

Full Stack Developer with 4+ years of experience building production-grade SaaS platforms and Web3/DApp solutions. Strong across React, Next.js, Node.js, and Python with FastAPI – designing async APIs, microservices, and LLM-powered backends backed by PostgreSQL, MongoDB, and Redis. Deployed on AWS and DigitalOcean. Focused on scalable architecture.

EMPLOYMENT

01/24 – Present	SOFTWARE ENGINEER BAYSHORE COMMUNICATION · AFTAB NAGAR, DHAKA Lead full-stack delivery for SaaS, Web3/DApp, and AI-driven products. Architect features using React, Next.js, Node.js, and Python/FastAPI – with REST/GraphQL APIs backed by PostgreSQL, MongoDB, and Redis. Mentor engineers, lead code reviews. Delivered an AI chatbot platform on a clean architecture, with deployments on AWS and DigitalOcean.
01/22 – 12/23	JUNIOR SOFTWARE ENGINEER IT BANGLA LTD · 32 TOPKHANA RD, PURAN PALTAN, DHAKA Developed and maintained production web applications and REST/GraphQL APIs across the React and Python/FastAPI stack, including an online trading platform. Owned features end-to-end – from UI to API to deployment – and contributed to bug fixes, performance tuning, and code-quality improvements as a core team contributor.
